Seeding Rules:

Seeding Rules only apply after teams have been selected from each pool. Since teams may not have played an equal number of games, seeding by team record will be by winning percentage. Example is a team with a 3-0 (100%) is tied with a team with a 4-0 record (100%).

1. If three or more teams have the same winning percentage and no team defeated the other tied teams, the first tie-breaker is the lowest runs allowed ratio. If the teams are still tied, use the lowest opponent runs allowed ratio.
2. If two teams are tied with the same winning percentage, the tie-breaker is the head-to-head game. If the teams did not play each other, use Rule 1 above.

Tie Breaker Rules:

1. If two teams are tied with the best won-lost record, the winner of the pool game between the two tied teams will be the tie-breaker and that team will advance to the next segment. If the teams did not play each other see rule 2 below.
2. If two teams are tied with the best won-lost record, and they did not play each other, then the runs-allowed ratio will be computed to break the tie. The team with the lowest runs-allowed ratio per half inning of defense played will advance.
3. If three teams or more are tied with the same won-lost record, and one team has defeated the other tied teams, then that team will advance to the next segment. If one of the remaining tied teams is to advance, use Rule 1 above.
4. If three or more teams are tied with the same won-lost record, and one team has not defeated the other tied teams, then the runs-allowed ratio, will be computed to break the tie. The team with the lowest runs-allowed ratio per half-inning of defense played will advance. If one of the remaining tied teams is to advance, use Rule 1 above.
